## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11 and 21-22, drawn to a single-handle cordless defibrillator.

Group I, claim(s) 12-20 and 23-24, drawn to dual-handle cordless defibrillator.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
3. There is not a special technical feature common to both groups that makes a contribution over the prior art. A pair of paddles including a pair of electrodes attached respectively is known in the art, as can be seen in the example found in Miller et al. (US Patent Publication 2003/0191501 A1).
4. Furthermore, the special technical feature of Group I, a regulator arm in communication with the pivot for adjusting the pivot is not shared in group II. The special technical feature of Group II, a conductor for electrically connecting the dual-handles, is not seen in Group I. Therefore, the respective groups lack the same or corresponding special technical features and do not relate to a single general inventive concept.

A telephone call was made to Mr. Yorks on 05/04/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
